

Words that are Written

Background

In May 2012, I attended the Written By The Spirit conference in Shrewsbury, UK. On the first evening I received the following word which I passed to the organisers.

Since then, it has been the underlying drive behind Kingdom Words.

Words that are Written

Words that are spoken last but for a moment and may only touch a handful of people, but words that are written live forever and may reach countless lives.

So, my children, do not be afraid to commit what I have given you to writing, for my Spirit will take it, infuse it with power that you cannot imagine and release it to the world.

Immerse yourselves in the flow that I will pour out on you this weekend. Bless and be blessed.
